

## Boys Of 17 Now Can Enlist In U. S. Navy

Physical and age requirements for applicants for enlistment in the United States navy have been lowered, according to orders received by R. B. Hart, chief clerk of the navy department, at the local recruiting station.

Boys of 17 now can get into the navy, provided they are 52 inches in height and weigh 110 pounds. Formerly minimum qualifications were age 18, height 54 inches and weight 125 pounds. The new scale provides that applicants for enlistment more than 17 years old must be at least 54 inches tall. Weights required are: Age 18, 115 pounds; age 19, 120 pounds; age 20 and over, 125 pounds. Hereafter 75 per cent of the applicants have been because applicants were underweight, according to Story. Enlistments still are being made for the U. S. S. Tennessee at the navy recruiting office in the Goodbar building.

The exceptional opportunities offered in the navy are fully illustrated in the case of the men who know a trade. A man who knows a machinery or gas engine trade can be enlisted as first-class engine room crew at a salary of \$84 a month, with board and clothes free. In lowest pay for any navy grade is \$48 a month, while the top is \$125. All grades include board and clothes.

## STEAMER NASHVILLE SOLD REPAIR JO HORTON FALL

The steamer Nashville, recently inaugurated in the river trade between Memphis and Paducah at the instance of the local Chamber of Commerce, has been sold by Capt. W. L. Berry of Paducah, the owner, to Williams Brothers of Evansville, and according to word received by Henry H. Berry, secretary of the chamber, the vessel will be taken from the Memphis trade to a schedule between Louisville and points to the north.

To replace the Nashville Capt. Berry is preparing the Jo Horton Falls, another of his boats, which is now at Paducah getting a new wheel shaft. The Jo Horton Falls probably will enter the Memphis-Paducah trade about the first of the week, according to tentative plans. Memphis shippers who were patronizing the Nashville are expected to switch their patronage to the Jo Horton Falls.

The same schedule as that used by the Nashville will be followed by the Berry's second boat—leaving Memphis each Thursday at 5 p.m., making stops at all wharves landings between here and Paducah.

## We Want Our Service To Result In Your Good Will

Years ago many strange ideas about banks were conceived. A popular notion was that a bank was a money shrine, accessible only to the elect. Ideas have changed. Customers are inclined to look beneath the surface of marble and bronze for the spirit of service. In this National Bank this spirit is exemplified.
